

Plaque — laser template

Laser cut 1/8"-thick cast acrylic (clear)

Plaque is 2.75" square

Screw holes on a 2.25" square

Pilot holes diam = 1/16"

For your model, you may change the text, or make a plain clear plaque cover without text.

Laser score one-stroke lettering, or laser etch filled lettering.

Fill lettering with paint (before removing paper mask)

Our one-stroke text was created in Inkscape using Hershey Text "EMS Readability" font. Stretched text width (115%).
