

Stand legs and crossbars — paper template

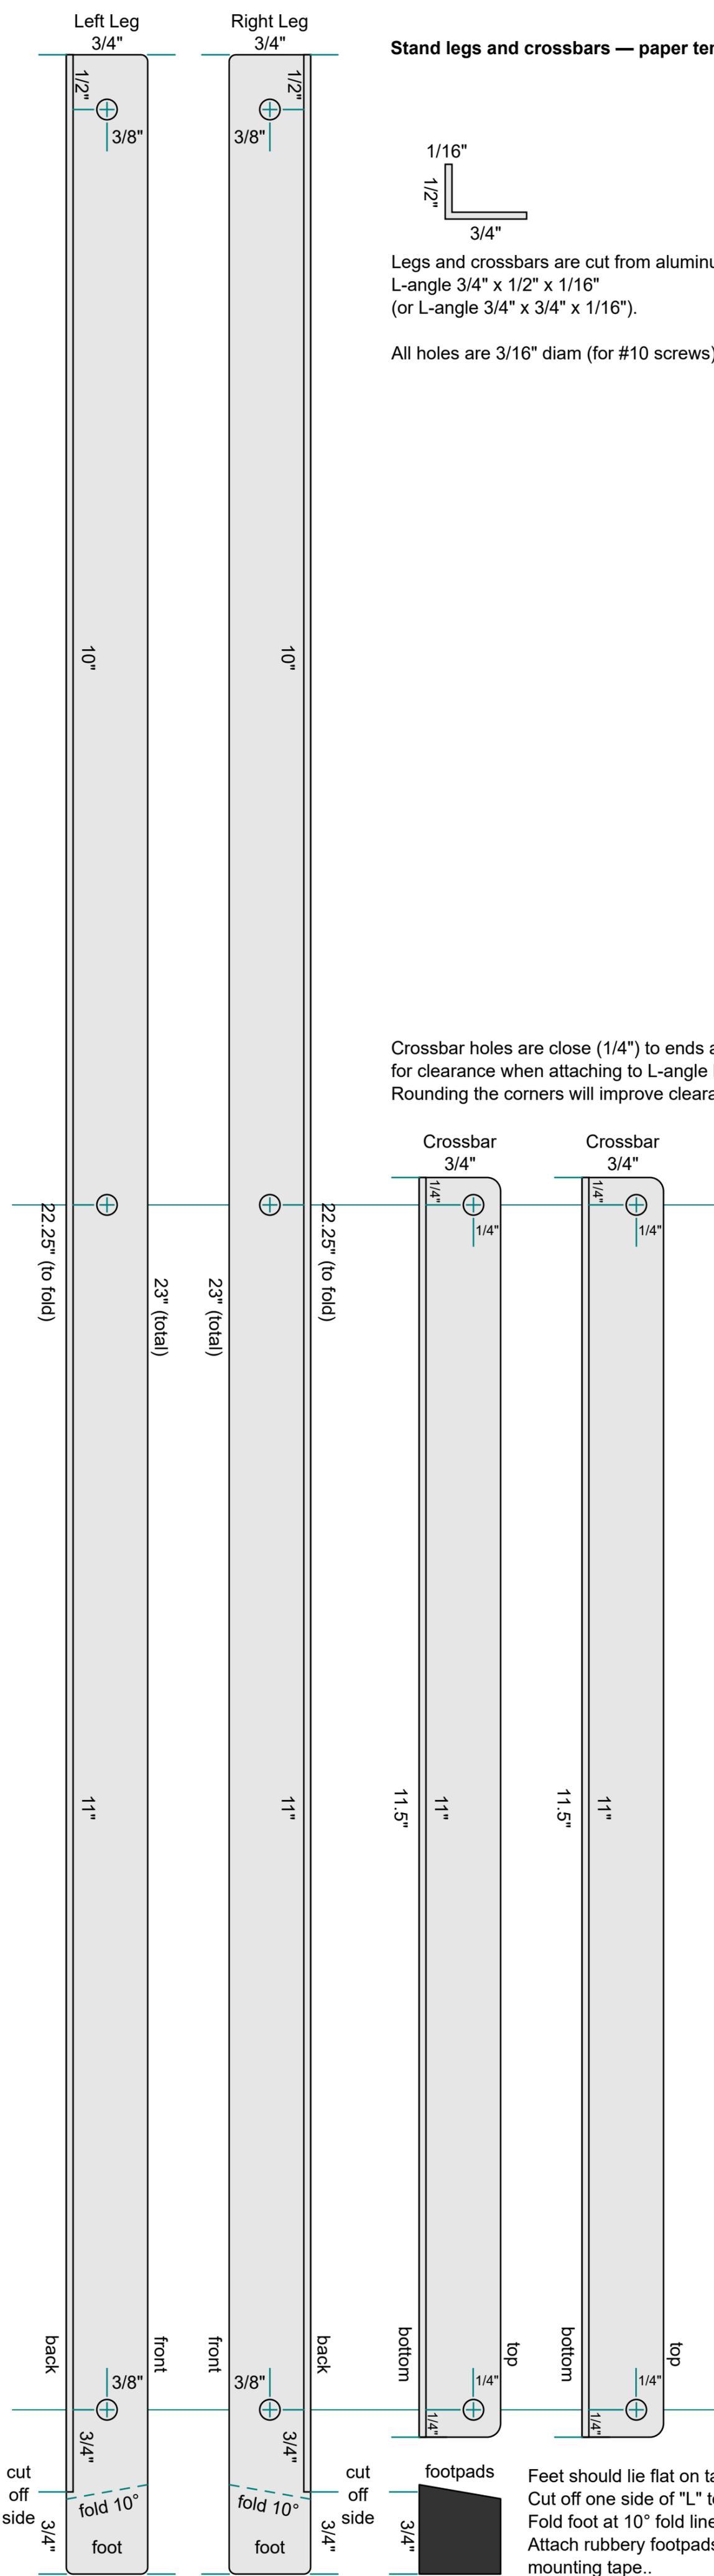

Print to scale
1"

Legs and crossbars are cut from aluminum L-angle 3/4" x 1/2" x 1/16" (or L-angle 3/4" x 3/4" x 1/16").

All holes are 3/16" diam (for #10 screws).

Crossbar holes are close (1/4") to ends and edges for clearance when attaching to L-angle legs. Rounding the corners will improve clearance.
